WORK TEC 140+WAIST TEC

Ergonomic four-point harness consisting of the Work Tec 140 and Waist Tec models.

Developed for work in restraint, positioning and for use in fall arrest systems.

Main features:

- sternal attachment point made of light alloy and dorsal attachment point made of stainless steel;
- innovative Easy-ring sternal closure system which is very robust, intuitive and easy to open even when wearing gloves;
- EN 358 lateral attachment points in two positions: in case of usage (work mode) they are turned externally from the waist belt for the connection of a positioning lanyard, in case it is not used (stand-by mode) they fold inwards so it does not interfere the operator's movements;
- rear attachment points designed for the connection of a restraint lanyard;
- padded profiled shoulder straps so as to avoid undue friction on the operator's neck;
- dorsal support made from breathable mesh for optimal comfort when in suspension;
- two horizontal straps positioned on the shoulder straps and exclusively intended for the insertion of HOOK REST support;
- two additional gear loops on the waist belt;
- leg loops equipped with quick release buckles that have an indicator for correct insertion;
- work load limit: 140 kg.
