CONTAINERS FOR FRUIT AND VINE GROWING

DRINKS MASH VINTAGE

PRACTICAL THINGS FOR HOUSE, YARD AND GARDEN

Teningen plant near Freiburg

## GRAF – Quality plastic products

### We remain true to our roots

The history of our family business is deeply rooted in our region. In Teningen, near the Kaiserstuhl, one of Germany's most renowned wine regions, we once began producing containers, barrels, and tanks for winemakers.

Surrounded and supported by the many small farms around us, we recognized the potential of rainwater early on.

"Rainwater is free" was one of our first campaigns back in the 1970s. This is still true, by the way. Today, with our products for sustainable water management, we make a valuable contribution to our future. Nevertheless, we have always remained true to the origins of our product range.

We feel a strong connection to Germany as a business location. On the one hand, we are deeply committed to this location with our tradition. On the other hand, we find the qualified and motivated employees here to maintain our high quality standards.

## Round beverage barrels

Upright barrel shape

- I Made of food-safe polyethylene
- I Stable, thick-walled design with airtight screw cap

- I The transparent material makes the fill level is clearly visible from the outside

### INFO

- I GRAF beverage kegs are a thousand-Proven and known worldwide!
- I Certified food authenticity

### Scope of delivery

- I 10 and 15 liter barrel including 1 carrying handle
- I 30 to 125 liter barrel including 2 carrying handles (Load capacity per handle 30kg)
- I 10 to 50 liter barrel including screw cap Ø120 mm
- I 80 to 125 liter barrel including screw cap Ø200 mm
- I All barrels include 1 outlet spout Ø34mm with cap

### Round beverage barrels

Contents [l]	Ø [mm]	Height [mm]	Total height [mm]	Weight [kg]	Art. No. nature
10	240	270	345	0,7	825050

# Mash tanks

## INFO

- I Suitable for storing fruit mash
- I Made of food-safe polyethylene
- I In rectangular, space-saving design

When installing the tanks, please ensure that they are supported with their entire base area!

- I Fill level visible from outside

## Scope of delivery

- I mash tank
- I Filling dome DN 400
- I Bandages made of galvanized steel
- I Device for counter flange

## Mash tanks

Contents [l]	Long [mm]	Width [mm]	Height [mm]	Weight [kg]	Art. No. nature

# Mash barrels and mash containers

- I Made of food-safe polyethylene
- I Round, standing version with Weithalsöffnung
- I Thick-walled design

## Scope of delivery

- I mash barrel
- 30 and 60 liter barrel including 2 carrying handles (load capacity per handle 30 kg)
- I Lid with seal and clamping ring

## mash barrels

Contents [l]	Ø [mm]	Lid opening Ø [mm]	Height [mm]	Weight [kg]	Art. No. blue
30	310	250	510	2,0	824400
60	400	325	640	3,7	824410
120	470	390	800	6,0	824420
220	600	465	980	9,6	824430

- I Made of food-safe polyethylene I Conical design
- I Robust and impact-resistant
- I Stackable when empty
- I Stacking corners prevent the individual containers from getting stuck

## Scope of delivery

- I mash container
- I Lid with dipping rim

## INFO

The immersion lid closes airtight through liquid-filled immersion rim; fermentation gases can escape.

Also ideal for storing sauerkraut. The water edge creates an airtight sealing the container ensures that the sauerkraut stays clean and appetizing.

## mash tank

Contents [l]	Lower Island [mm]	Upper island with rim [mm]	Height [mm]	Weight [kg]	Art. No. nature
680	905	1180	910	26	774673
1.000	1020	1280	1230	45	774674

## Rectangular container made of GRP

### INFO

- I Made of GRP – robust, weather-resistant and extremely dimensionally stable I
- Highest quality and affordable price
- I Universally applicable
- I Conical design, with flat bottom at the bottom, open at the top with outwardly curved reinforcing edge
- I A smooth and pore-free surface inside and out

Please note that the containers must be placed flat and on a stable surface.

### Rectangular container made of GRP

Contents [l]	Inner dimension bottom [mm]		Inner dimension top [mm]		Height [mm]	Border width [mm]	Weight [kg]	Art. No. green	Accessories	
	Long	Width	Long	Width					Art. No. Lid	Art. No. trolley
100*	730	470	780	520	290	35	7,0	814500	811029	864502
300*	935	560	1025	650	510	45	15,8	814520	811031	864522
400*	1000	600	1105	705	600	50	19,5	814530	811032	864532
700	1115	725	1250	860	760	60	33,0	814550	811034	864552
1.100	1350	910	1490	1050	800	65	50,0	814560	811035	864562

\*These sizes have one recessed grip on each end – the outer length is therefore increased by 16 mm.

## Carrying tubs and harvest buckets

- I Made of polyethylene
- I Robust and impact-resistant

- I Made of food-safe polyethylene
- I With sturdy handle and solid hand roller

### Accessories

#### Leather carrying straps (pair)

Art. No. 784044

### Carrying cases

Contents [l]	Form	Long [mm]	Width [mm]	Height [mm]	Weight [kg]	Art. No. green
50	Youth 520		350	830	4,1	784042
70	Rhine	530	375	910	4,7	784041
